July 1985

INTRODUCTION

This publication was prepared by the Research and Analysis Section of the Arkansas Employment Security Division as one of its responsibilities to provide needed labor force statistics to the many agencies and organizations throughout the State that are involved in area analysis and economic development planning.

Statistics in this publication supersede any other similar data previously published for 1975 through 1984 by this agency and are not comparable with any similar data published for years prior to 1975.

Labor area boundaries as designated in this publication have been defined by the United States Department of Labor, and all labor force statistics have been prepared using standard technical methodology developed and provided by the Bureau of Labor Statistics, United States Department of Labor. Area employment and unemployment estimates have been adjusted to be consistent with the independently estimated state totals.

Metropolitan Statistical Areas. The map on page one indicates the four designated Metropolitan Statistical Areas in Arkansas during 1984. They are Fayetteville-Springdale, Fort Smith, Little Rock-North Little Rock and Pine Bluff. Also shown on the map are two counties, Crittenden and Miller, which are part of the Memphis, Tennessee–Arkansas and Texarkana, Texas–Arkansas MSA's, respectively.

Labor force data for the Memphis, Tennessee–Arkansas MSA is prepared by the Tennessee Department of Employment Security and labor force data for the Texarkana, Texas–Arkansas MSA is prepared by the Texas Employment Commission.

Data for these MSA's can be obtained by contacting the respective state agencies at the following addresses:

DEFINITIONS

Annual Average – The sum of the data for the week of reference in each month of the year divided by 12.

Week of Reference – The week which includes the 12th of the month.

Total Civilian Labor Force – Represents the number of persons, on a place-of-residence basis, who were employed, unemployed or involved in labor-management disputes. Members of the Armed Forces are excluded from the estimate of the civilian labor force.

Unemployment – An estimate of the average number of persons who, for the entire week of reference, did not work at all, were able to work and available for work, and (1) were looking for work, or (2) would have looked for work except that (a) they were waiting to return to a job from which they had been laid off, or (b) they were waiting to report to a new job.

Unemployment Rate – The average number of unemployed workers as a percentage of the average civilian labor force.

Employment – An estimate of the average number of persons, on a place-of-residence basis, who worked any time for pay or profit or worked 15 hours or more as an unpaid family worker during the week of reference. Also included are those who, although not working, had some job attachment and were not looking for work, and persons involved in labor-management disputes.

Agricultural Employment – An estimate of the average number of persons who worked on farms and received pay or profit during the reference week. Also included are unpaid farm family workers who worked 15 or more hours during the week.

Domestic Service, Self-Employed and Unpaid Family Workers – An estimate of the average number of nonagricultural workers who were employed as domestics in private households, were self-employed, or worked as an unpaid worker in a family owned establishment.

Nonagricultural Wage and Salary Employment – The average number of full and part-time nonfarm workers who worked during or received pay for any part of the week of reference. This series is on a place-of-work basis.

Metropolitan Statistical Area (MSA) – A term applied by the U. S. Office of Management and Budget to counties or aggregations of counties that have one or more central cities and that meet specified criteria of population, population density, commuting patterns, and social and economic integration. (Previously known as Standard Metropolitan Statistical Area – SMSA).

Agricultural Employment	In 1983, Benton County was dropped from the Fayetteville – Springdale Standard Metropolitan Statistical Area. Because of this change in geographic definition, industry data for years prior to 1983 are not available. Furthermore, labor force data for 1975 – 1982 are not strictly comparable with the 1983–1984 data because of a difference in methodology.								2500	2450

Employment (1)	3875	3975	4575	4425	4750	4975	5100	5150	6200	6225
Agricultural Employment	In 1983, Little River County was dropped from the Texarkana, Texas–Arkansas Standard Metropolitan Statistical Area. Because of this change in geographic definition, industry data for years prior to 1983 are not available. Furthermore, labor force data for 1975–1982 are not strictly comparable with the 1983–1984 data because of a difference in methodology.								325	300
Domestic Service, Self-Employed and Unpaid Family Workers									975	975
